Physics

Einstein's theory of special relatively that expresses the equivalence of mass and energy: $E = mc^2$. See Equation 1 to better understand standard deviation.

better understand standard better understand standard

Even more so:

$$4x + 5 = 6 \tag{1}$$

w. Like wow!wmqwldqwwe

And wow! Even add callout:

> **ℹ Note**
>
> Note that there are five types of callouts, including: `note`, `tip`, `warning`, `caution`, and

> **important**. Some math 4 involved:
>
> $$4x + 3 = 24x = -1x = \frac{-1}{4}$$
>
> And some `code`:
>
> `print(5)`

Oh how cool.

Rendering code

w. s

x.

This is awspan that has the class aside which places it in the margin without a footnote number.
